### Summary

Recent Computer Science graduate passionate about data analytics and business intelligence. Skilled in LibreOffice Calc, Microsoft Excel, Metabase, and SQL. Eager to apply analytical and technical skills in a professional setting to support data-driven decision-making.

### Technical Skills

- LibreOffice Calc / Microsoft Excel (Data Cleaning, Pivot Tables, Charts)
- Metabase (Data Visualization and Dashboard Creation)
- HTML, CSS, JavaScript
- SQL (Data Querying, Joins, Aggregations)

### Projects & Experience

- Project 1: Student Registration Data Analysis
  - Used Excel and SQL to analyze student registration data.
  - Created tables and charts to show student numbers per class and most requested courses.
- Project 2: Simple Sales Dashboard
  - Used LibreOffice Calc to create spreadsheets and charts showing monthly product sales.
  - Analyzed best-selling products and months with high sales.
- Project 3: Interactive Reports Using Metabase
  - Built simple reports and dashboards using Metabase.
  - Extracted data from a database using SQL and presented it in an easy-to-understand way to support decision-making.

### Education

Bachelor of Computer Science – University of Tripoli, Libya
